Olubukunmi Olufemi

09036269576 | phemiwrites@gmail.com | Ikeja, Lagos

Summary

Fullstack Software Engineer with 4+ years of experience architecting and shipping scalable, high-performance web applications. Computer Science background from the University of Ibadan, specializing in modern React/Next.js frontend architectures, resilient RESTful APIs, and full lifecycle system development. Proven track record of translating complex design systems into intuitive, production-grade digital products.

Experience

Vanlyke Tech | Remote
Full-Stack Engineer(Founding/Sole Engineer) | 01/2026 - Present

- Built and maintained a React/TypeScript storefront with product pages, cart, customer library, and viewers for digital books, audio, and films.
- Designed Node.js/Express APIs and MongoDB data models for content, purchases, bundles, comments, and administration; implemented email/password and Google OAuth authentication, verification, password resets, and role-based access.
- Integrated Paystack, PayPal, Stripe, and regional payment providers for individual purchases, carts, and bundles, including payment verification and refunds.
- Developed media workflows using presigned video uploads, GitHub Actions–triggered HLS transcoding, webhook-based publishing, signed playback URLs, and direct Cloudinary uploads.
- Protected paid content with purchase verification and restricted file URLs; built previews for video, audio, and configurable PDF excerpts.
- Created admin tools for products, purchases, bundles, comments, and page content; translated owner and user feedback into prioritized releases and explained technical trade-offs to a non-technical stakeholder.

Sui Foundation | Remote, Lagos
Web3 Developer/DevRel | 01/2025 - 10/2025

- Guide developers through their Web3 application journey by providing technical expertise and direction.
- Build a feedback loop between the developer community and the protocol; translate pain points into actionable product insights.
- Design and deliver remote workshops and training for new and experienced developers.
- Explain complex blockchain concepts clearly to audiences with varied technical backgrounds.
- Use developer tools and test applications to build practical knowledge of the ecosystem and identify developer needs.
- Collaborate across teams, prioritize high-impact initiatives, and support developers building with Move and Rust.

Contract - NDA | Remote
Fullstack Developer | 11/2024 - 01/2025

- Developed complex dashboard user interface in Angular with Angular Material components
- Created multiple UI components following best practices
- Implemented modal and notification systems for the user interface
- Collaborated with team members and partners remotely
- Implemented security measures in frontend development

ICP Ilorin | Remote
Web3 Developer/Tutor | 10/2024 - 11/2024

- Developed and deployed smart contract code using Motoko
- Tutored students on installing blockchain tools and working with ICP
- Instructed students on writing and deploying smart contracts on the ICP blockchain
- Collaborated with team members to ensure code quality.
- Contributed to open-source blockchain projects and actively participated in the ICP blockchain community

ICP Ibadan | Ibadan, Nigeria
Web3 Developer/Tutor | 10/2024 - 10/2024

- Developed and deployed smart contract code using Motoko
- Tutored students on installing blockchain tools and working with ICP
- Instructed students on writing and deploying smart contracts on the ICP blockchain

- Collaborated with team members to ensure code quality.
- Contributed to open-source blockchain projects and actively participated in the ICP blockchain community

Cartesi Communities | Ibadan, Nigeria
Web3 Developer | 09/2024 - 10/2024

- Developed smart contract code using Cartesi rollups
- Conducted user onboarding for Cartesi framework, providing guidance on tool installation and rollup utilization
- Collaborated with team members and partners globally for project implementation
- Utilized documentation effectively to ensure seamless integration of tools
- Participated in code reviews and documentation efforts for project transparency

Fean Homes - Contract | Ikeja, Lagos
Fullstack Developer | 04/2024 - 07/2024

- Developed and implemented RESTful API for real estate rental/purchase system
- Integrated API into frontend application for seamless functionality
- Enhanced frontend user interface with modern and attractive design
- Created thorough documentation for code and system architecture
- Collaborated with team members to ensure successful project execution

Freelance | Remote
Fullstack Developer | 08/2023 - 03/2024

- Collaborated with clients to identify their needs and requirements
- Analyzed client problems and identified appropriate tools and technologies
- Developed comprehensive solutions to address client issues
- Implemented scalable and secure web applications
- Developed RESTful API development for seamless integration with backend services
- Documented code and system architecture thoroughly

Contract | Ontario, CA
Fullstack Developer | 02/2023 - 06/2023

- Planned, tracked, and managed deliverables on 10+ short-term sprints and deployments.
- Developed code following common security practices and development design patterns.
- Collaborated with external programmers to coordinate delivery of 3 new web applications.

Democracy Lab | Seattle, WA
Front End Developer | 10/2022 - 02/2023

- Designed and implemented web applications along with 3rd-party software integrations as a web team liaison.
- Worked with PM to keep on track with the project plan, timeline, and billing.
- Created the user experience that fetched, parsed, and formatted analytic data, and relayed it into React components.
- Designed and developed web applications using JavaScript frameworks React.js.

Freelance | Remote
Web Developer | 07/2022 - 08/2022

- Conducted thorough analysis of clients' requirements and devised customized web solutions to meet their specific needs.
- Successfully designed and implemented Ecommerce web infrastructures for companies; Jetzz Technologies and Airmed Pharmaceuticals.

The House Of Sounds | Ikeja, Lagos
Front End Developer | 02/2022 - 07/2022

- Created accessible, responsive, and functional user interfaces to allow visitors on any device to have the same perfect user experience.
- Designed, developed, and supported new and existing secure websites and web applications.

What I Work With

- Languages : JavaScript/Typescript, Java, Python
- Web3 Specific Langs. : Move, Motoko
- Framework/Libraries(Frontend) : React.js, Angular, Next.js, MUI, TailwindCSS
- Framework/Libraries(Backend) : Node.js, Express.js, Nest.js
- Dev Tools : Docker, Git, Linux/Unix
- NoCode: Webflow, WordPress
